**Colloquial Icelandic The Complete Course For Beginners Daisy Neijmann** - Colloquial Icelandic: The Complete Course for Beginners by Daisy Neijmann is an excellent resource for those wishing to learn the complicated, highly inflected, yet down right beautiful language of Icelandic, or should I say, Íslenska. Colloquial Icelandic provides a step-by-step course in Icelandic as it is written and spoken today. Combining a user-friendly approach with a thorough treatment of the language, it equips learners with the essential skills needed to communicate confidently and effectively in Icelandic in a broad range of situations. Library of Congress Cataloging in Publication Data Neijmann, Daisy L., 1963– Colloquial Icelandic: the complete course for beginners/ Daisy L. Neijmann. p. cm.—(Colloquials) Includes index. 1. Icelandic language—Textbooks for foreign speakers—English. 2. Icelandic Language—Spoken Icelandic. I. Title. II. Colloquial series. I think that this book is not a very good starting point for beginners if I am honest. I think it will come in useful to go back to once I have actually mastered some basic Icelandic and will give me a better understanding of the language but for a complete novice, it just throws you in with out really teaching you anything to begin with and I found it very complex and confusing.
